iQ426HEPA®

CYCLONIC DUST EXTRACTOR WITH HEPA FILTRATION

From drywall dust to saw dust, the iQ426HEPA is designed to be the most versatile dust extractor on the market today.

The iQ426HEPA separates itself from the competition with its 4 stage filtration system and unmatched, Super Duty Performance! Engineered with advanced cyclonic technology, less than 1% of the dust ever reaches the filter meaning vacuum and airflow stay strong.

The iQ426HEPA dust extraction vacuum is a complete revolution for the construction industry.

Less than 1% of dust ever hits the filter.

Vacuum stays strong, optimizing dust collection.

190 CFM OF MAX POWER

With revolutionary multi-stage cyclonic filtration technology, the iQ426HEPA is able to intercept large sized dust particles to protect your filter. A clean filter means the iQ426HEPA continues to run strong with powerful suction.

OSHA COMPLIANT FOR 7" GRINDERS

THE 190CFM surpasses the OSHA requirement to have 25CFM per inch of cutting wheel.

14' ANTI-STATIC HOSE

Extend your reach on the job site with the 14' anti-static hose. Both ends of the hose conveniently interlock, allowing for clean and easy storage.

4 STAGE FILTRATION SYSTEM

2 stage cyclonic and a 4 stage filtration system:

- 1st stage - The primary cyclone picks up the largest sized dust particles.
- 2nd stage - The 6 secondary cyclones then pick up any medium to small sized dust particles.
- 3rd stage - Particles down to 0.5 μm are captured by the Durabond filter.
- 4th stage - The HEPA filter captures 99.97% of all particles down to 0.3 μm .

iQ SMART POWER MANAGEMENT

In addition to the auto start feature, the iQ426HEPA intelligently distributes power between the tool and the dust extractor, automatically giving your tool additional power when it needs it. This minimizes tripped circuit breakers and maximizes work performance.

CART & ACCESSORIES

The heavy duty cart designed with industrial grade steel, provides protection and durability for the iQ426HEPA while maximizing job site maneuverability. The iQ426HEPA cart includes integrated accessory rack with nozzles and adapters to meet your dust collection demands.

7 CYCLONES

The iQ426HEPA boasts 7 cyclones - one main cyclone, followed by 6 surrounding cyclones. The cyclones and a clean filter is what gives the iQ426HEPA its power.

HEPA FILTER

The iQ426HEPA uses a certified HEPA filter capturing 99.97% of dust at .3 μm . This filter has been designed and tested to meet and exceed the global standards for dust extraction machines.

DUST CONTAINMENT

The iQ426HEPA utilizes a 10 gallon/50 pound dust containment tub with optional heavy duty dust collection bags with convenient zip tie closure, making dust disposal easy, efficient and safe.
