

# Structural Tile Over Shower Bases and Niches with Built in Fall

brilliant

## What is the Akril Tile Tray?

Structural & self supporting

Can be installed directly onto joists

Manufactured in Australia

Does not require waterproofing

Built-in fall for drainage

Waterproof tray system that wont leak

Multiple waste & grate options available

15 Year guarantee

Watermark certification

Manufactured using Torbex®

Tray flange easy to trim down to suit all tiling heights

Sanitary grade suitable for all wet areas

The Akril Tile Tray, manufactured from Torbex®, is a self draining shower system with built-in fall. With watermark certification meeting Australian standards on all outlets, the Akril Tile Tray system offers a high quality package for quick and easy installation. It can also be installed directly onto joists.

The Akril Tile Tray is the only Australian made, structural, waterproof tray on the market!

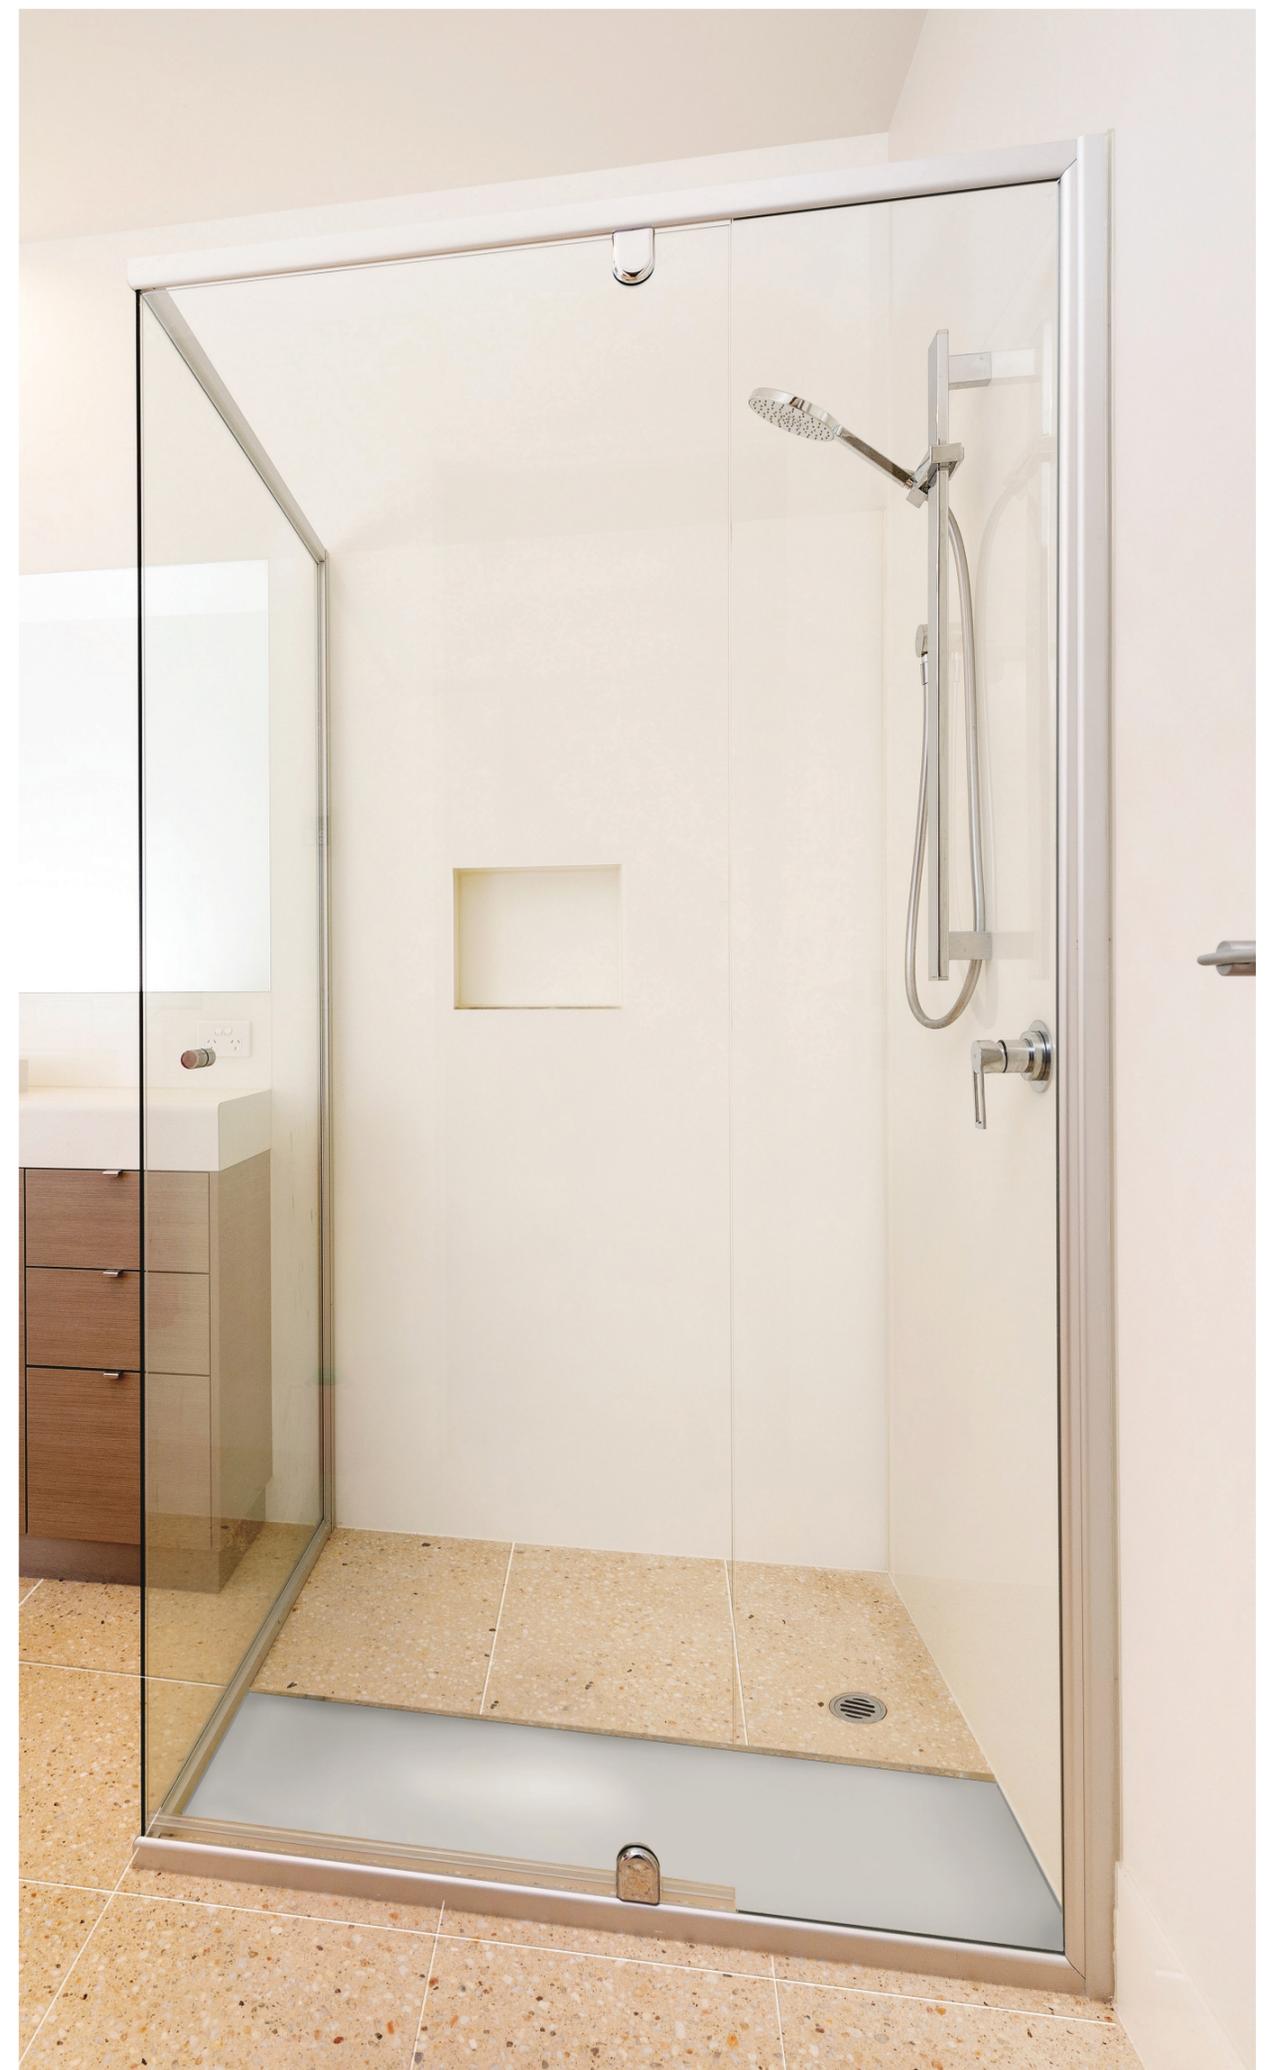

Not only is it ideal for tight spaces due to its pre-formed design, but it's also a great feature in more elaborate bathroom designs.

## Akril Structural Tile Tray

Easy to install and high-quality, you can be confident that the Akril Tile Tray system will meet both your construction and design needs. Why not try the rear grate option, which offers a modern stylish look.

### What is Torbex®?

Torbex® is a high strength long glass fibre composite material designed and developed specifically for use in shower trays. Torbex® is produced by Australia's largest manufacturer of composite materials.

## Structural Tile Tray and Accessory Options

**1**  
Tile Tray Rear Outlet Torbex®

**2**  
Tile Tray Rear Grate Torbex®

**3**  
Tile Tray Rear Grate Torbex® (Large Format)

**4**  
Round Drain

**5**  
Square Drain

**6**  
Tile Insert

**7**  
Punched Style Grate

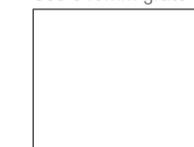

**8**  
Tile Insert Grate

**9**  
Wire Style Grate

Tile Insert Grate - We offer an 11mm and 17.7mm high option to account for different thickness tiles.

Different Grate Length - When installing a tile tray into a shower with 3 walls we recommend using the shorter length grate option. As an example when installing a 900x900 tile tray:

Use 840mm grate

Use 860mm grate

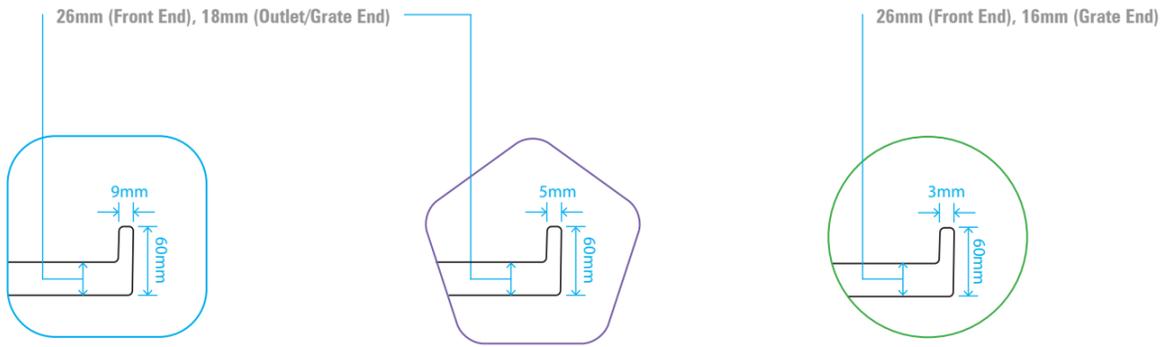

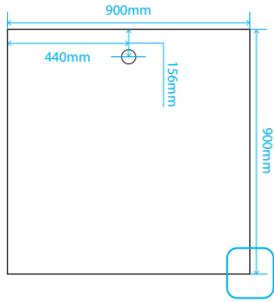

# Tile Tray Dimensions

NOTE: - All Perimeter measurements from **Outside** edge to Outside edge  
 - All Internal Measurements from **Inside** Edge

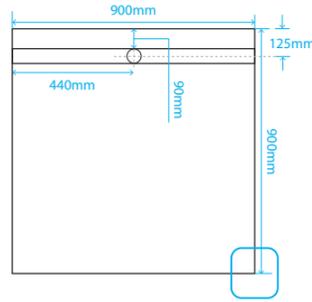

It is the responsibility of the installer to adhere to local building codes when installing the Akril Tile Tray. Akril Tile Trays are designed to be tiled over and must be used as such. Failure to cover or tile the correctly will void the warranty.

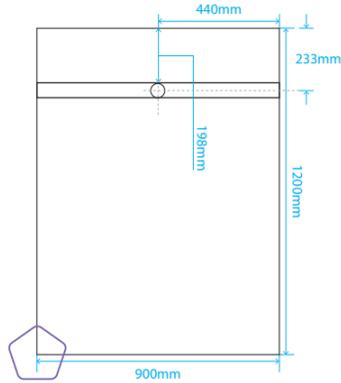

900mm Tile Tray Outlet (54700)

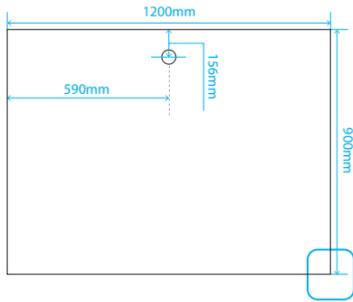

900mm Tile Tray Grate (54701)

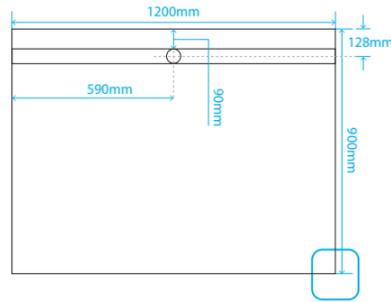

900mm Tile Tray Grate (54706)

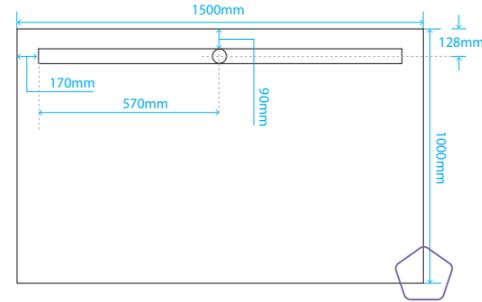

1200mm Tile Tray Outlet (54702)

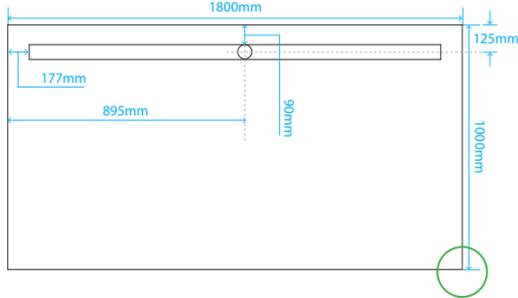

1200mm Tile Tray Grate (54703)

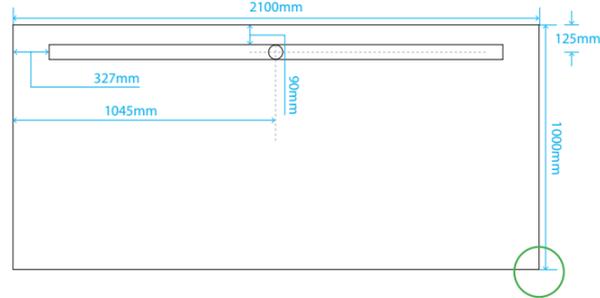

1500mm Tile Tray Grate (54707)

1800mm Tile Tray Grate (54708)

2100mm Tile Tray Grate (54709)

# Akril Tile Trays are DIY Easy!

Your Akril Tile Tray can be installed directly onto joists. It can also be installed onto particleboard or hardwood flooring and even concrete slabs.

Akril Tile Trays are perfect for any bathroom whether you are doing a renovation or building a new home.

Easily trim the lip around the perimeter of the tray to suit your tile height for a seamless walk through tiled base. With its structural properties, built in fall and high weight rating it will save you time and money while giving you peace of mind for years to come.

\*Please read the installation instructions carefully before installing your tray\*.
