

Ablaze Mirrors

Non-Lit Magnifying Mirror Range

Installation Guide

Please read these instructions carefully and in full before installation.

Mirror Installation

Installation:

1. Begin by determining the appropriate location and height. We recommend approximately 150cm from the floor if the mirror is to be used while standing, and 120cm from the floor if used while seated.
2. Remove the unit from its packaging and lay it carefully on a stable surface on top of the product bag so that it does not get scratched.
3. Remove wall mounting bracket E from the magnifying mirror by unscrewing the two decorative caps A and B from the face plate.
4. Use the wall mounting bracket as a guide and mark the location of the screw holes for the bracket on the wall.
5. Caution: Check the internal wall location for structural strength. Injury to people or damage to the mirror and/or mounting surface may result if mirror is pulled from the surface. To limit the likelihood of such injury or damage, mount the mirror on a structural wall material that is sound.
6. Drill holes in the wall at the marked locations. Insert wall plugs in each hole. Install wall mounting bracket onto the wall using the mounting screws provided.
7. Position the magnifying mirror over the mounting bracket and slide screws C and D back through the face plate and fasten in position with decorative nuts A and B and ensure these are tight.

KEY:
A – Decorative Cap
B – Decorative Cap
C – Screw
D – Screw
E – Wall Mounting Bracket

Warranty

Thermogroup covers all its products with a satisfaction guarantee. In addition, Thermogroup will supply a replacement product where a fault is shown to be caused by manufacture, materials or workmanship providing the goods have been installed correctly and according to installation instructions. This guarantee does not include removal, freight or installation costs. Our goods come with guarantees that cannot be excluded under Australian Consumer Law. You are entitled to a replacement or refund for a major failure and compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.

All the Ablaze Magnifying Mirrors have a 1 Year warranty. To use the warranty, repair or service the customer must provide purchase invoice/receipt, and any other relevant details.

If the product develops a fault within the warranty period due to normal wear and tear, Thermogroup at its discretion will recognise whether it's a faulty product or not. If it is impossible or not economical for the manufacturer to repair the product, the manufacturer will replace the faulty product with a new unit of the same model or if there is no stock available of the same model as the product, the manufacturer will replace the product with a new unit of a similar size. No responsibility can be taken for altered dimensions and lining up of existing holes.

The repair service offered within the warranty period only covers the faults and problem as developed from the manufacturer's errors. Any damage caused by improper use or carelessness or incorrect wiring is not covered.

Thermogroup is not responsible for any monetary loss or injuries caused by improper use of this product.

Mirror Care

- Clean the mirror with any glass cleaner or a 70-30% water to methylated spirits mixture.
- Do not use any abrasive cleaner on the mirror frame.
- Do not submerge mirror in water or use excessive of water for cleaning purposes.
- This appliance is intended for household use.
- To store the mirror, use original packaging.
